

HCHS/SOL Export Report

7/16/2020

General Instructions

The HCHS/SOL Export Report permits sites to extract pertinent data from CDART and import into their local systems. The data generated can be restricted to a select group of participants using one or more of the following menu options.

- *Eligible* – Restricts the data to participants eligible for one or more selected assessments, such as the pulse wave velocity ancillary study.
- *Eligible, Screened, and Interested* – Restricts the data to participants who are eligible for a specific assessment, have been contacted by site staff, and have indicated they are interested in participating.
- *Completed* – Restricts the data to participants who completed one or more selected assessments.
- *Preferred Language* – Restricts the data based on whether the primary language of the participant is Spanish or English.
- *Visit 3 Phone Assessment* – Restricts the data based on the completion status of the Visit 3 phone call.
- *Annual Follow-Up Window* – Restricts the data to participants who are inside or outside the window for their annual follow-up assessment.
- *Search By Date* – Restricts the data based on a specific date, such as the date of the in-person appointment scheduled for Visit 3.
- *Include Participants Between* – Used in conjunction with the *Search By Date* to specify a date range.
- *Single Participant* – Restricts the data to a single participant based on their ID.
